COASTLINE CLADDING

A LIGHTWEIGHT COMPOSITE CLADDING THAT'S EASY TO INSTALL

coastline®

LIGHTWEIGHT COMPOSITE CLADDING

- MINIMAL EXPANSION/CONTRACTION
- INDEPENDENTLY FIRE TESTED (UK 2018) TO BS EN 13501-1
- PATENTED COMPOSITE MATERIAL
- SIX NEW ENGLAND THROUGH COLOURS
- BBA CERTIFIED SYSTEM

OUR BEST-SELLING COMPOSITE CLADDING, NOW AVAILABLE IN TWO STYLES

Coastline cladding is an innovative composite cladding system that lifts the appearance of any property and adds up to 10 years of guaranteed weatherproof performance.

Our horizontal range is extremely popular, but we're always looking for new ways to bring you and your customers better products and more choices. That's why we've expanded the range to include vertical cladding.

Our new vertical cladding range boasts all the same benefits as the horizontal range but allows for a sleek flush finish achieving a more modern look. And it's amazingly easy to work with and fit because it's lightweight, easier to lift and handle than cement boards, and needs no other trades on site to get the job done.

Available in six New England colours
